S.H.N.V Higher Secondary School, Sivakasi

PROFESSIONAL&TECHNICAL SKILLS

- HTML/CSS
 - Java script
 - React js
 - Node.js
 - Express
 - MongoDB
 - REST API
-

PROJECTS

MY Portfolio

This portfolio showcases my projects, skills, and real-world implementations, including full-stack applications and backend integrations. I focus on clean code, performance, and delivering practical solutions through continuous learning and hands-on development.

AC Sales & Services Management System

AC Sale & Service Management System is a MERN Stack based application. Admin can add and manage AC products and services from the admin panel. Users can buy products, book services, and add them to cart. Delivery man and technician receive requests for product delivery and service booking respectively.

Survey/Feedback Application

This is a Survey Management Application developed using the MERN Stack. Admin can create surveys and add multiple questions from the admin panel. Users can view available surveys and submit answers to the survey questions. This application demonstrates role-based access, dynamic forms, and full-stack integration.

Food delivery App

Anbu Suvai is a modern and responsive food website developed using React.js and Firebase. The application provides a smooth user experience with dynamic components and routing. Firebase is used for backend services such as authentication and data management. This project highlights practical skills in React state management and real-time database integration.

Resume-Maker

Resume Maker is a dynamic web application built using React.js. It integrates with a REST API to save and retrieve user resume data. Users can create, customize, and preview professional resumes in real time. This project showcases skills in React component design, form handling, and API communication.
